

CzechIdM - Task #2002

Managers of contracts ended in the past shouldn't be able to change roles for current contract

01/06/2020 08:46 AM - Tomáš Doischer

Status:	Closed	Start date:	01/06/2020
Priority:	Normal	Due date:	
Assignee:	Radek Tomiška	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	10.3.0		
Description			
The situation is as follows:			
<ul style="list-style-type: none">• a user has a contract C and a manager A• contract C ends and a new contract D is created for the user• problem: manager A still can change roles for the contract D and approve role requests on contract D even though he is not the manager of the contract D			
This is an issue closely related to the one in #1146 but probably easier to fix (maybe ended contracts will not have a manager).			
Just to add, we do want a manager of contract valid in future to be able to change roles of the contract.

UC: When new contract D is not created, then no manager can edit this identity. This is the reason, why are evaluators for subordinates designed this way (contract state is ignored for subordinates).
Are you sure about this requirement?

#2 - 01/06/2020 09:55 AM - Marcel Poul

- Parent task deleted (#1146)

- Related to Feature #1146: Managers should change roles only for the contracts, for which they are managers added

#7 - 03/13/2020 01:28 PM - Tomáš Doischer

- Assignee changed from Tomáš Doischer to Radek Tomiška

After the discussion on Slack, we arrived at the conclusion that we do need the manager of an ended contract to manually edit the user. So we would like it to work like this:

A manager of a contract ended in the past

- **CAN** edit the identity
- **CANNOT** approve its role requests (no tasks should be created for the manager)

Can you please implement this?

#9 - 04/14/2020 11:44 AM - Radek Tomiška

- Assignee changed from Radek Tomiška to Vladimír Kotýnek

We didn't finish a discussion for this requirement, the last question remains open:
Do we need to the manager of an ended contract can edit the user?

Could you please confirm this requirement coming from your project only?

#10 - 04/14/2020 11:53 AM - Radek Tomiška

- Related to Task #2204: Authorization policies: Add permission to identity by contract (transitively) added

#11 - 04/15/2020 11:14 AM - Radek Tomiška

- Status changed from New to In Progress
- Assignee changed from Vladimír Kotýnek to Radek Tomiška
- Target version set to 10.3.0

We have consensus to implement this feature as original requirement says, so ended contract will not have a manager.

Summary: A manager of a contract ended in the past

- CANNOT edit the identity
- CANNOT approve its role requests (no tasks should be created for the manager)

#12 - 04/17/2020 10:05 AM - Radek Tomiška

- Status changed from In Progress to Needs feedback
- Assignee changed from Radek Tomiška to Vít Švanda
- % Done changed from 0 to 90

It's implemented. Only valid or future valid contract can define managers and subordinates. Ended contract in the past cannot define managers or subordinates. On the other hand, contract state (e.g. manually disabled contract) still can define managers or subordinates - when contract is disabled by manager, then manager still can enable contract again.

- % Done changed from 90 to 50

As we consulted on friday - we need all variants, because managers of invalid contract have to be provisioned. So all changes above have to be refactored and new filter has to be created and used in requests and security.

#14 - 04/21/2020 10:42 AM - Radek Tomiška

- Status changed from In Progress to Needs feedback

- % Done changed from 50 to 90

New method `IdmIdentityService#findAllManagers(UUID, UUID, Boolean)` was added. Use this method to get managers of valid contracts (as approvers) in your custom scripts and workflows. This new method is used in product workflows. All product filters for find managers were updated and new optional parameter `validContractManagers` was added - change behavior in your custom (overridden) filters if needed. Contract state (DISABLED) is ignored by this new filter - filter works just with contract dates.

I did review and test. Manager cannot change roles for expired subordinate's contract now. If a contract is future valid, then assigned roles can be modified by manager.

Thnaks for this feature.
