

CzechIdM - Feature #2039

Bulk actions IdentityDisableBulkAction and IdentityEnableBulkAction execute disabling/enabling with normal priority

02/05/2020 08:00 AM - Ondřej Kopr

Status:	Closed	Start date:	02/05/2020
Priority:	Low	Due date:	
Assignee:	Radek Tomiška	% Done:	100%
Category:	Bulk operations	Estimated time:	0.00 hour
Target version:	10.3.0		
Description			
Bulk actions IdentityDisableBulkAction and IdentityEnableBulkAction call method enable and disable on IdmIdentityService. This methods execute standard save with normal priority.			
Use case:			
<ul style="list-style-type: none">• administrator wants immediate disable identity on system,• administrator executes this bulk action,• when is process another operation (eq synchronization) that throw many another events the disable operation on system will be executes after some time.			
Please try think if is possible just throw event with HIGH priority (or immediate :)), or if will be better add now option for this bulk action.

Could you provide me a feedback, please?

#4 - 04/28/2020 01:00 PM - Vít Švanda

- Status changed from Needs feedback to Resolved
- % Done changed from 90 to 100

I did review and test. High priority is used now for identity enable/disable actions. Thanks for that.
