- % Done changed from 90 to 100

I did review and test. Work nice. I found one minor problem. If prjection is disabled, then cannot be selected in evaluator definition. I think this isn't big problem, so you can close this ticket.

#5 - 04/30/2020 06:20 AM - Radek Tomiška

- Status changed from In Progress to Resolved

I think so. Disabled items work the same way in all selectboxes, but I don't have a place to enable these options in extended attributes - new attribute (face) property has to be impelemented, if needed.
