

CzechIdM - Task #2163

Authorization policies - support secured contract eav attributes by default

03/30/2020 12:39 PM - Radek Tomiška

Status:	Closed	Start date:	03/30/2020
Priority:	Normal	Due date:	
Assignee:	Radek Tomiška	% Done:	100%
Category:	Authentication / Authorization	Estimated time:	0.00 hour
Target version:	10.3.0		
Description			
Added user projection expects secured contract extended attributes (IdentityContractFormValueEvaluator was added in #2015), but original additional data tab remains unsecured. Secure additional contract data tab and write note into change log + release notes.

When the support for secured extended attributes for contracts was added, when authorization policy modal dialog doesn't show the second "IdentityContractFormValueEvaluator", when policy is edited (create is ok). This is related with the same target group permission ("FORMVALUE") - FE has to be refactored (choose different unique num select box key) together with this ticket.
