<b>Description</b>			
When I open a detail of an automatic role by attribute definition and go to the <i>Rules</i> tab, there is no "Back" button on the bottom of the site. Please add the button as a way to get back to the list of definitions.

I've added new close detail button. This button leads back to agenda or role detail (two places with automatic roles) and will work on every tab.

Could you provide me a feedback, please?

Note: i fixed some navigation and css issues.
