Thx for this feature! I did test and code review, it works and code is nice, awesome!

Review notes:

- additional loading of role catalogue should be removed from both evaluator methods. Uuid is needed only and if catalogue not exists, then simply nothing is found.
- #getPermissions - IdmRoleService#count method should be used instead #find method (it will be quicker). Test is missing for this method (e.g. <https://github.com/bcvsolutions/CzechIdMng/blob/develop/Realization/backend/core/core-impl/src/test/java/eu/bcvsolutions/idm/core/security/evaluator/identity/IdentityByFormProjectionEvaluatorIntegrationTest.java#L84>).

I just renamed evaluator by product conventions:

- Status changed from In Progress to Needs feedback
- Assignee changed from Ondřej Kopr to Radek Tomiška
- % Done changed from 80 to 90

Thank you for feedback. The changes will be also moved into extras module.

Commit: <https://github.com/bcvsolutions/CzechIdMng/commit/1bc627d29cbd42d10c0e657638bae845b5db3f10> (same branch)

Please Radek could you check the branch again? Thanks :)
