

CzechIdM - Task #2572

Enable saving a lot of permissions together (current limit is 255 characters)

Status:	Closed	Start date:	11/11/2020
Priority:	Low	Due date:	
Assignee:	Radek Tomiška	% Done:	100%
Category:	Authentication / Authorization	Estimated time:	0.00 hour
Target version:	10.8.0		

Description

Tested on 10.6.1 together with Password Reset module. If you try to set all permissions at once, it can't be saved due to some limit. Just now the limit is just enough (there is no real reason to set Administration and all the other together), but if we add some new permissions in the future, we could need to increase it.
