- Status changed from New to Resolved

- Target version set to 10.8.0

- % Done changed from 0 to 100

ad flash messages) Messages are hidden after login (or remote login), because messages can be related to previously logged user.
ad display notification when user is signed out due to changes in authorities) User can be logged out from different reason - e.g. identity is disabled or token can be disabled - session expiration window is shown now.
ad logging) I removed logging on FE, when remote login is not available.

I'm closing this obsolete ticket.
